GREENWOOD CITY

Mrs. Colista Morgan, Cor. — What a surprise greeted us Thursday morning; water to the road, the boat on the beach gone! Others tugging at their moorings anxious to be off on an adventure. Still the rains came and the water rose all forenoon.

The school bus arrived unexpectedly at noon. So some extra work I had planned but off I went with camera in hand.

I strolled the ponds edge then took a walk to the river. Here the torrents of the flood waters were rushing, cascading among the boulders and fanning out into foam covered pools. Great tangles of drift wood here, too, as along the pond's edge, lodged in the bushes. At the dam the waters roared, foaming, gushing over with amazing velocity and power. At the bottom in the boiling clouds, the spray could be seen from shore to shore ever changing in the shifting light.

Liking the wild music and the taste of the spray in my face I spent some time watching the whitening rapids and the majestic leaps of the debris being swallowed up in a picture of confusion. My joy reached new bounds as the afternoon sun hit the heaving mists and painted a broken rainbow. Such a scene may soothe yet awe the mind.

Could this be the same river that only yesterday, gurgled and murmured bubbling musical sounds as it moved on all through the day and into the darkness?

Huddled and lonely, within

were Mr. and Mrs. James Edwards and family of Auburn on Saturday and Mr. and Mrs. Charles Fox and family of Lovell on Sunday.

Mr. and Mrs. Ray Andrews and Mr. and Mrs. Linwood Andrews attended the first birthday party for Miss Kelly Andrews, daughter of Mr. and Mrs. Wayne Andrews, Lewiston, on Sunday.

CARD OF THANKS

My sincere thanks to relatives, friends, and neighbors, for cards, letters, flowers, and visits, while in the hospital, and since I have returned home.

Ruth Young

sound of these waters stands an old farmhouse while above the bank and by its side the lilac bushes are beginning to be green.

Then moving on into the sun toward home and crossing the water I could imagine the bridge tremulous beneath me. At my right, time after time the swallows dipped above the calmer water of the pond then rose to be wind tossed and dip again. To my left I took a last look at the river endlessly turning, twisting following its curves through the young birches and alders bidding farewell on its course to the sea.

"Faith, like gunpowder is made up of three component parts. Gunpowder is—sulphur—carbon—and saltpeter. Faith has three necessary aspects which involve the whole man. LETTER TO THE EDITOR

To the Editor of the Citizen:

The first letter I asked you to print was my personal feeling on Zoning and a Zoning Board of Appeals.

My opinion remains the same but I have found that a surprising number of people agree with me.

I have attended a couple of meetings of interested citizens and the turnout would put a lot of public meetings to shame.

I find that many feel, and I agree, that we have lived together many years without serious problems and see no reason to change over now for something that is going to get people up in arms as a year of Zoning laws are fast doing.

Many feel some of the newer residents are imposing, in trying to set up new ordinances that have not been asked for.

I'm sure they are sincere and believe in what they are doing but let's face it, people who have lived and grown up here and have homes here don't want the town reorganized. We don't feel it needs it, and we don't want to have to pay lawyer's fees to straighten out decisions made by what we feel is an unneeded ordinance. This has already had to be done and it is an unnecessary hardship on the person involved to gain his rights, and the fact that it can be done puts the ordinance in a position of weakness.

We feel the Zoning Board of Appeals should be abolished and we return to the code previous

The Bible Lesson also includes passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, among which is the following: "Mortals are not progressive, past or evil as time glides on. If mortals are not progressive, past failures will be repeated until all wrong work is effaced or rectified. If at present satisfied with wrong-doing, we must learn to loathe it. If at present content with idleness, we must become dissatisfied with it."

THE YOUTH CENTER SPEAKS TO YOU

L. Westleigh, T. Davis

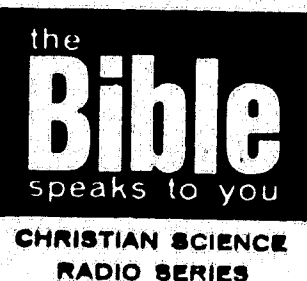

The Center seems to be a growing success. We are very pleased to have such a remarkable attendance. Due to a few complications we have changed the age limit. It is now set at the age level of seventh grade up through the teens to the age of 21, if not married. This age group will include youths who may be out of school and would like to use the facilities.

It has been voted that there to 1967.

As for amending the laws, we don't feel now after the controversy that satisfaction could be reached to the extent where there would be good cooperation at this time.

We think we better abolish the Zoning Ordinance at the present time and when and if the older citizens of the town feel they need and want an ordinance of some kind all well and good. We don't want it thrust upon us. We have always been very independent in this Town of Bethel and done mostly as we wished individually and got along together very nicely, up 'til Zoning, so let's try it that way a while longer.

Sincerely,
 Harold T. Nutting

Professional golfer Arnold Palmer test-rides the Bolens Husky on the toughest proving ground he knows . . . the golf course near his home at Latrobe, Pennsylvania.

The Husky met the challenge head-on. It cut a close 42-inch swath through the fine and coarse textured grass. Clung stubbornly to steep sided hills, steered easily, braked firmly. Mowed an acre and a half in 56 minutes flat!

The Bolens Husky wasn't built specifically for golf courses. The Husky was designed and engineered to perform your lawn and garden projects.

WOODSTOCK

On April 30 at 7:30 in the evening, Pastor David Shaw continued his evangelistic services in the Seventh-day Adventist Church at South Woodstock. His topic for that evening was, "The Church in Prophecy. Can We Understand the Book of Revelation?" This was followed by a short film strip. This series of meetings offers the opportunity to all to become better acquainted with the Bible. The Book-of-Books, the Bible is really made of sixty-six smaller books, written by forty different authors over a period of fifteen centuries. Among these writers were men of every class and rank, and written under varied circumstances and in different countries.

In spite of this wide variation of writers and the ages in which they wrote, there is no disagreement. All the writers agree on one story, the story of salvation, runs through it all. What would you conclude about such a book? Surely, only God could have inspired it!

Officers of Pleasant Valley Grange, West Bethel. North Waterford Grange will present the program. The host grange will serve supper at 6:30.

PLANNING BOARD EXPLAINS HIGHWAY COMMERCIAL ZONE

This week's article by the Bethel Planning Board will cover the Highway Commercial zone and will explain some of the proposals that are going to be voted on May 14th.

The Highway Commercial zone is where the main use of the land is for establishments offering services, accommodations and supplies to motorists. The intent is to help control commercial sprawl along the highways by grouping together the businesses that are better located outside the downtown area. The Highway Commercial district is ordinarily located along numbered state or federal highways. Any use that is permitted in the Central Business District is also permitted in the Highway Commercial district; in addition any retail uses involving outdoor sales, service or storage is permitted in the Highway Commercial District. Automobile graveyards and junk yards are not permitted. Outdoor retail businesses would include such businesses as gasoline service stations, used car lots, sale of cars, trucks, farm machinery, boats, trailers, building supplies and trees and nursery supplies. Inns, motels, restaurants, and lunch stands are also permitted in this zone. Mobile home parks and veterinary hospital or kennels are the uses that are not generally acceptable, but if controlled as to number, location, relation to the neighborhood and how they are maintained they could be permitted by approval of the Board of Appeals. In this zone as in the others it is necessary to set up space and height regulations to prevent crowding and fire hazard.

There are a number of proposals being submitted to the town for voting that could change many areas to highway commercial. These proposals have been presented to the Planning Board by private citizens who wish to change their land to Highway Commercial, and some of the proposals were made by the Planning Board. There is a need for more Highway Commercial zones in Bethel, and with these proposals before the voter, he can choose which of the areas that have been suggested he would prefer to see as Highway Commercial zones.

Starting at the village and going toward Rumford on Route 2, the first area proposed to change is Bridge Street. There are two

separate articles—one to change the area from the Hanover Dowel to the Androscoggin River from General Residential to Highway Commercial; the other is to change the area from the White Mountain National Forest Station to a point 300 feet the town side of the Androscoggin River. The next area proposed to change is the area starting 300 feet from the Androscoggin River to the Godwin-Lee property line. This would be changed from Residential Farming to Highway Commercial. In a separate article it is proposed to change the area on the right side of the road from 300 feet beyond the River to the vicinity of Carter Equipment Co. This is presently zoned Residential Farming. Further out Route 2 it is proposed to change the area on the left side of the road from the Thurston farm to Sunday River, and to change both sides of the Sunday River Road from Route 2 to the Newry town line. These areas are now zoned Residential Farming. Traveling on Route 2 from Bethel toward West Bethel there are two areas that changes are proposed for. On the left side it is proposed to change the land from Lover's Lane to the west boundary of the Red Lantern. This is now zoned Residential Farming. The other area proposed to change is from Favreau's mill property to the Pine Grove Cemetery at West Bethel; this is now zoned Industrial. Traveling on Route 26 from Bethel toward Locke Mills, the first area proposed to change is the former Grafton Lumber Co.; this is now zoned Industrial. The other area proposed to change is both sides of the road from Beaver Brook (Clyde Stevens' property) to the Greenwood town line.

The Planning Board has met weekly since the first part of March. The above proposed changes are only part of the proposals to be voted on. Next week other proposals will be discussed along with the recommendations of the Planning Board.
